3. Rules sheet

Handover status: 3 of 6 questions answered (50%)

3 open gaps | 1 needs in-person | 6 conflicts to check | 7 no contingency documented | 0 source not found

Tags marked AI-flagged are the AI's judgement. Check them against the quote beside each rule.

R1. The Finance Controller sends the close calendar to the finance lead of each entity on WD1 at 10 am. from SOP AI-flagged: no contingency documented

> "1. WD1, 10 am: The Finance Controller sends the close calendar to the finance lead of each entity."

R2. The FP&A analyst downloads the bank statements for all three entities from the bank portal and saves them in the Close folder on WD1. from SOP

> "2. WD1: The FP&A analyst downloads the bank statements for all three entities from the bank portal and saves them in the Close folder."

R3. The FP&A analyst prepares accrual journals in the ERP for payroll, rent, professional fees and cloud costs from WD1 to WD2. from SOP

> "3. WD1 to WD2: The FP&A analyst prepares accrual journals in the ERP for payroll, rent, professional fees and cloud costs."

R4. The FP&A analyst reconciles each bank account to the ledger on WD2. from SOP

> "4. WD2: The FP&A analyst reconciles each bank account to the ledger."

R5. Every unreconciled item above Rs 10,000 is listed on the Recon tab of the close workbook on WD2. from SOP

> "Every unreconciled item above Rs 10,000 is listed on the Recon tab of the close workbook."

R6. Intercompany balances between the three entities are matched on WD2. from SOP AI-flagged: no contingency documented

> "5. WD2: Intercompany balances between the three entities are matched."

R7. Differences above Rs 5,000 are sent to the entity finance lead for correction on WD2. from SOP AI-flagged: no contingency documented

> “Differences above Rs 5,000 are sent to the entity finance lead for correction.”

R8. Every journal entry above Rs 50 lakh must be approved by the Finance Controller in the ERP before it is posted on WD3. from SOP AI-flagged: conflict AI-flagged: no contingency documented

> “6. WD3: Every journal entry above Rs 50 lakh must be approved by the Finance Controller in the ERP before it is posted.”

Conflict: R8 conflicts with R11 because R8 requires ERP approval before posting, whereas R11 allows phone confirmation for the Pune cost centre with ERP approval done later on WD4.

R9. The books are closed and the ledger is locked at the end of WD3. from SOP AI-flagged: conflict AI-flagged: no contingency documented

> “7. WD3: The books are closed and the ledger is locked at the end of WD3.”

Conflict: R9 conflicts with R13 because R9 states no postings are allowed after the lock at the end of WD3, while R13 states WD3 is only for routine postings and late items can be posted up to WD5.

R10. No postings are allowed after the lock on WD3. from SOP AI-flagged: conflict AI-flagged: no contingency documented

> “No postings are allowed after the lock.”

Conflict: R10 conflicts with R13 because R10 prohibits postings after WD3, while R13 allows late postings requested by the CFO until WD5.

R11. Only for the Pune cost centre. Meera confirms by phone, the call is noted in the ticket comment, and the ERP approval is raised on WD4. from leaver AI-flagged: conflict

> “Only for the Pune cost centre. Meera confirms by phone, the call is noted in the ticket comment, and the ERP approval is raised on WD4.”

Conflict: R11 conflicts with R8 because R11 permits phone confirmation and delayed ERP approval for the Pune cost centre, whereas R8 mandates ERP approval before posting.

R12. Use the SGD closing rate published by the Monetary Authority of Singapore for the last day of the month. from leaver

> “Use the SGD closing rate published by the Monetary Authority of Singapore for the last day of the month.”

R13. WD3 is the real lock for routine postings. WD5 only applies when the CFO asks for a late item. from leaver AI-flagged: conflict

> “WD3 is the real lock for routine postings. WD5 only applies when the CFO asks for a late item.”

Conflict: R13 conflicts with R9 and R10 by overriding the WD3 lock for late items requested by the CFO up to WD5.

R14. The FP&A analyst prepares the variance pack comparing actuals with budget and with last month on WD3. from SOP

> "8. WD3: The FP&A analyst prepares the variance pack comparing actuals with budget and with last month, with a comment on every line that moves by more than 5%."

R15. The FP&A analyst includes a comment on every line that moves by more than 5% in the variance pack on WD3. from SOP

> "with a comment on every line that moves by more than 5%."

R16. The Head of FP&A reviews the variance pack and sends it to the CFO on WD4. from SOP

> "9. WD4: The Head of FP&A reviews the variance pack and sends it to the CFO."

R17. The ledger is locked at the end of WD5. from SOP AI-flagged: conflict AI-flagged: no contingency documented

> "10. WD5: The ledger is locked at the end of WD5."

Conflict: R17 conflicts with R9 and R10 regarding when the ledger is locked.

R18. Postings after WD5 move to next month's books. from SOP

> "Postings after WD5 move to next month's books."

Open gaps (unanswered)

Q4. Since step 7 says the ledger locks at the end of WD3 and step 10 says it locks at the end of WD5, which deadline is the actual hard close for ledger postings? open gap

Q5. Do we need to document the specific foreign exchange rate or source used on the Recon tab when converting foreign currency accounts? open gap needs in-person

Q6. What is the fallback or escalation path if the entity finance lead does not reply or correct an intercompany difference before the close deadline? open gap

Needs in-person

Q5. Do we need to document the specific foreign exchange rate or source used on the Recon tab when converting foreign currency accounts?
